DIRECTIONS FOR KEY-HOLDERS.—Upon the discovery of a fire near your signal-box, pull down the hook, then wait a few moments, and if you hear no alarm on the large bells, pull down as before. If you still hear no alarm, go to the next box and give the alarm from that. Never open the box or touch the hook except in case of fire. Never signal for a fire seen at a distance. Do not give an alarm for a burning chimney. Be sure your box is locked before leaving it. Upon a third alarm being struck for the same fire it will be considered a general alarm. Second alarms will be turned in only by order of the Chief Engineer or his Assistants.

Keys of the signal boxes are deposited in the vicinity of each box, at such places as are indicated upon cards placed thereon.

The signal boxes in use consist of one hundred and ninety-nine boxes and are all automatic boxes. An alarm from an automatic box is given by pulling down the hook once and letting go, unerring mechanism doing the rest.

Complaints concerning the working of the Fire Alarm Telegraph, irregular striking of the bells and gongs, broken wires, etc., should in all cases be made at the Fire Alarm Office, Brenham Place.

In case of tumult or riot, whereby the services of the Police force are required, an alarm will be given, consisting of ten strokes upon the bells and gongs, repeated five times, which will be a signal for the Police to assemble at the old City Hall. This alarm will be given only by order of the Mayor or Chief of Police.

The telegraph apparatus consists of about one hundred and fifty miles of wire, divided into twenty-two circuits, of which thirteen are signal circuits, or circuits running to the signal boxes. Alarm gongs are located in the different Engine, Hook and Ladder, and Hose houses, each connected with the Central Office by the fire alarm circuits and eight alarm bells for striking the alarm box, located as follows: One on the Hall of the Exempt Fire Co., one on the Engine House on Sixth street, one on the Engine House on Stockton street, one on the Engine House on Second street, one on the Engine House on California street, one on the Engine House on Sixteenth street, one on the Engine House on Bryant street, and one on the Engine House on Pacific street. The bells and gongs are each struck at the same time by electrical machinery.

Colleges and Private Schools.

Notwithstanding the excellence of the free public schools of the city and State, their exemption from direct cost to the pupil or parent, and the great interest taken in them by the public as the nurse and strength of our free institutions, colleges and private schools of great wealth, popularity and importance rise and prosper. That such institutions exist, shows the great interest taken in educational matters. The public and private systems are rivals, each stimulating the other, and setting examples of enterprise, management, salaries, edifices, progress and standard of scholarships. There are in San Francisco over one hundred private schools, in which term are included the select school of a few pupils, the seminaries, commercial schools, academies, convent schools, and colleges, with their thousand students. The Census Marshal reported the number of youth attending private and church schools in this city in June, 1888 (not including Chinese) at 7,871. Many of the private schools having edifices of great capacity, cost and grand architectural appearance.

IRVING INSTITUTE.—A collegiate boarding and day school, located at 1036 Valencia, where young ladies are prepared for the State University, or graduated after its full academic course. The buildings afford accommodations for sixty boarding pupils. The attendance of the past year exceeded one hundred and twenty-five. Rev. Edward B. Church, M.A., Principal.

SACRED HEART COLLEGE.—The Sacred Heart College, located on the corner of Eddy and Larkin streets, is a wooden structure of three high stories and basement, and covering a large portion of the block. This is conducted by the "Christian Brothers," under the direction of Rev. Brother Genebern. The number of students is 700. The object of this institution is to give a thoroughly Christian and secular education, embracing the classical, scientific and commercial courses.

SACRED HEART PRESENTATION CONVENT.—The Sacred Heart Presentation Convent is a fine brick building of ample proportions, located at the corner of Taylor and Ellis streets. This is a chartered college by act of the Legislature and empowered to confer graduating certificates. The school is free of charge to all denominations. It was opened on the 24th of May, 1869, and the number of pupils increasing, made it necessary to enlarge the building, and in 1870 the portion fronting on Ellis street was added. Later on a wing within the enclosure was built, to afford more ample facilities for the improvement of pupils in music, needlework, painting, drawing, etc. The institution contains 500 pupils and a teaching staff of 19 Sisters, and is under the charge of Mother Mary Ignatius McDermot.

ST. IGNATIUS COLLEGE.—The St. Ignatius College located on the west side of Van Ness avenue, and extending from Hayes to Grove streets, ranks among the oldest and most prominent of the colleges of San Francisco, opening for the reception of students on October 15, 1855. It was incorporated under the law of the State April 30, 1859, and empowered to confer degrees and academical honors. The number of students usually in attendance is upwards of 600, with a staff of 27 professors and teachers. The college edifice consists of two main buildings, connected by spacious corridors. On the corner of Grove and Van Ness avenue, the first two stories are used for class and lecture-rooms, and the two upper floors as an exhibition hall. The college will accommodate twelve hundred students. The church and college combined front two hundred and ninety feet on Hayes street, and runs through to Grove street, a depth of two hundred and seventy-five feet. It is one of the largest and most magnificent edifices the city contains.

COGSWELL POLYTECHNIC COLLEGE.— Established in 1886 by Dr. H. D. Cogswell. Location corner of Twenty-sixth and Folsom streets. In the course of studies are included the languages, mathematics and the sciences. There are two terms of twenty weeks, commencing in January and August. Four hundred students can be accommodated, of whom one hundred can hold free scholarships, the number of the latter to be gradually increased. The course of study will be extended as rapidly as the students can be prepared for it, and the trustees can provide the means of maintaining a competent Faculty.

ANDERSON'S NORMAL SCHOOL.—Located at Room 12, Odd Fellows' Building, has for its objects the preparation of persons for the profession of teaching and the "teachers' examinations" in this and other counties of the State. The classes are so limited in number, and the branches taught are so adopted to the special requirements of the examinations that a person of ordinary school education can, by spending from six months to a year's time, be enabled to obtain a certificate to teach in any county in the State. In addition to the above work persons are prepared to enter the California State University.

SUGGESTIONS TO THE PUBLIC.

Facilities are given to the post-office officials in the discharge of their daily duties, and greater security afforded to the public, by careful attention to the following recommendations:

Make the address on letters legible and complete, giving the name of the post-office, county and State. The name of the street and number of the house should also be given on letters addressed to cities where letter carriers are employed; while the letter will eventually reach its destination without a number, the omission is often a cause of hesitation and delay. In the case of letters for places in foreign countries, the name of the country as well as the post-office should be given in full. Letters addressed, for instance, merely to "London," without adding "England," are frequently sent to London, Canada, and vice versa, thereby causing delay, and often serious loss.

FREE POSTAL DELIVERY.

The Free Postal Delivery System is similar to the one so successfully maintained in several of the large Eastern cities. There are ninety-three districts, each of which is in charge of a carrier, who delivers promptly all mail matter received at the Post Office, upon which is written the correct address, street and number of the party for whom it is intended.

All persons who desire their letters, etc., retained until called for, must leave their address at the Post-Office.

OF THE CONSOLIDATED

CITY OF SAN FRANCISCO,

IN ACCORDANCE WITH THE OFFICIAL MAPS, 1868, 1870, AND 1872

AND SUBSEQUENT ORDINANCES

EXPLANATORY.—The Ordinance for re-numbering the buildings of this city provides that "Market Street shall be the starting point for the numbers of all buildings fronting on the streets running therefrom in a northerly direction, and also for those running therefrom in a southeasterly direction. The streets laid down in the official map of the city as forming the water front thereof shall be the starting point for numbers on all streets running westerly and southwesterly therefrom, except upon such streets running westerly commencing from Market Street, and upon all such streets, Market Street shall be the starting point for numbers. On all streets the numbers on the right hand side, starting from the point of beginning, are even numbers, and on the left hand side, odd numbers. One hundred numbers, or as many thereof as may be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectively the numbers for commencing the blocks distant one, two, and three streets from the starting point on the side designated for even numbers, and numbers 101, 201, and 301, in similar manner for the opposite side of the street, throughout its extent; so that the initial figure of the number placed on a building at any street-crossing shall indicate the number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all vacant lots of ground shall be allowed for each number. On all cross or intermediate streets the numbering shall commence where said streets begin, and shall conform to the plan specified in this Order."

By this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for example, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, which is the seventh from Market—Commercial and Merchant being private streets. Again, 825 Clay is on the ninth block from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one hundred numbers are allowed on each block between principal streets.

The following streets are but partially opened, and each differ materially from the plan originally laid out, viz: Clementina, Ecker, Jessie, Minna, Natoma, Ritch, Shipley, Stevenson, and Tehama.

The territory lying west of Laurel Hill and Odd Fellows' Cemetery, and generally known as the Outside Lands, has recently been surveyed, and is designated on the new official City and County Map as avenues and streets. Those running north and south are named respectively from First to Forty-ninth avenues, and those running east and west, from First avenue to the Ocean, and parallel with Point Lobos Avenue, A to W streets.

Reference is frequently made in the Register of Names to the following, and which are located as follows: Hoadley's Addition, situated west of Pierce and between Geary and Washington; Horner's Addition, south and near the Mission Dolores; Western Addition, west of Larkin; San Miguel Ranch, southwest and near the Mission Dolores; Bernal Heights (B. H.), south of Twenty-sixth Street, between San Bruno and San José Roads; and University Mound Tract (U. M. T.), west of San Bruno Road, five miles from the City Hall. *See, also*, Prominent Places, and Street Directory.

(*b*) Street not opened. (*c*) Fractional blocks, one hundred numbers allowed for first two blocks. (*d*) Fronting the bay. (*e*) Street ends. (——) Street does not cross. B. H., Bernal Heights. U. M. T., University Mound Tract. S. S. F., South San Francisco. A blank is used where the number at the crossing of a street could not be ascertained.
